

COMPANY STORY

ExtraHand Construction began in 2012 through residential redevelopment projects throughout Detroit. What started as hands-on renovation work quickly evolved into a passion for solving complex construction challenges and restoring value to properties.

Founded officially in 2021, ExtraHand Construction now provides comprehensive residential, commercial, and municipal construction services throughout Southeast Michigan.

Today, the company combines technical expertise, project management, workforce development, and community engagement to deliver quality construction solutions for homeowners, investors, municipalities, and development partners.

WHO WE SERVE

HOMEOWNERS

From repairs and renovations to full-home transformations, we provide professional construction services designed to protect and improve your investment with trust, quality, and warranties.

REAL ESTATE INVESTORS

Whether you're rehabbing a rental, preparing a property for sale, or managing portfolios, we optimize tight schedules, budgets, inspections, and project ROI.

MUNICIPALITIES & NONPROFITS

We support public agencies and community organizations with facility improvements, compliance projects, lead-safe practices, and workforce development.

PRIME CONTRACTORS

ExtraHand provides skilled labor, trade capacity support, project coordination, and subcontracting services to deliver work safely and efficiently.
